

## **REMARKS**

Applicants request reconsideration of the application in view of the amendments to the claims and the remarks presented herein.

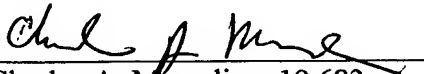

The claims in the application are claims 29 to 47, all other claims having been cancelled. The present amendment refers to all the claims and complies with 37 CFR 1.121 (c).

The Examiner has required restriction between (1) claims 29 to 47 draw to compounds of formula I wherein A is A<sub>4</sub> in which T is  $-(CH_2)_m$  in which m is 1 or indole compounds and claims 29 to 35, 37 to 43 and 46 and 47 wherein A is A<sub>4</sub> and T is  $-(CH_2)_m$  and m is 2. The Examiner believes the groups are patentably distinct and then required an election of species.

Applicants traverse the restriction since it is believed that the compounds of Formula I as in the claims are drawn to a single inventive concept as acknowledged by the Examiner handling the parent application. It is requested that the Examiner examine all the compounds in the same application. However, to be fully responsive to the Office Action, Applicants elect with traverse the compounds of Group I and elect as species the compound of Example 36.

Since the first Office Action was merely a restriction requirement, a prompt examination of the claims on the merits is requested.

Respectfully submitted,  
Hedman and Costigan
